 - i. We had \$2000 allocated specifically to families needing financial assistance for this field trip. School found out that they cannot use our funds to support specific students, but can use them for an identified group of students. It was decided that these funds, along with some of the funds allocated for regular class field trips, to reduce the overall cost for all students participating from \$120 to only \$50. Some families still require assistance, and an Education Matters campaign [Mount View School | School Campaign | EducationMatters](#) has been set up to support that.
